Advertiser codex

The Danish Hunters' Association (DHA) offers advertisers a strong media platform consisting of *Jæger* magazine, www.jaegerforbundet.dk and newsletters.

Our advertisers are important to us, and we therefore adhere to strict standards in our behaviour and in our media. We do this to ensure that our advertisers experience great positive value from our partnership, and an open and friendly dialogue with DHA based on mutual trust and confidence that we deliver on our promises.

Guidelines

The Danish Hunters' Association is keen to partner with anyone who wants to promote the hunting cause and support DHA's mission and vision. We therefore publish advertisements and inserts targeting Danish hunters and other outdoor enthusiasts who read our media.

Advertisements in DHA's media must comply with applicable law. The advertiser is responsible for ensuring that the content of their advertisement observes all applicable rules.

If DHA becomes aware that the content of an advertisement or insert is in breach of Danish law or hunting ethics, DHA may reject the advertisement without notice, but will often engage in prior dialogue about the ad content with the advertiser.

DHA is politically neutral and does not publish advertisements or inserts from political parties.

DHA reserves the right to reject advertisements that the association does not wish to publish without further justification.

Prices

Since we treat all advertisers alike, we do not make exceptions from the prices and discount options shown in the price list. This applies irrespective of who the advertiser is.

Production of advertisements

We are happy to help produce advertisements for DHA's media, subject to a fee. DHA retains the copyright for the material produced. Copies of the finished material will be supplied at no charge for the advertiser's own use. Advertisements produced by DHA must not be placed in other media without prior agreement.

Advertisement deadline

Advertisements must be received by DHA before the set deadlines. If the deadline is exceeded, we reserve the right to charge an administration fee of DKK 500 per advertisement.

Cancellation after the booking deadline

Ads cancelled after the order deadline will be invoiced at 50% of the full price.

Ads resembling text

Any material that we deem could be confused with edi-

torial material must carry a headline stating 'ANNONCE' (advertisement) at the top in at least 12 point font size. *Jæger*'s preferred typography and layout must not be used when formatting text and layout.

The material must also be submitted to DHA for approval before the deadline.

Errors and claims

In the event of any error which the advertiser is not responsible for, we will refund an amount we deem to be in proportion to the impact on the message, but never exceeding the cost of the advertisement.

Error notifications and claims must be received by us within 14 days after publication. We disclaim liability to pay compensation for incorrect publication, delays, failure to publish, stopping booked advertisements, or any consequences of such errors.

Online advertising

The good experience our readers enjoy through our media is the foundation for our business. We go to great lengths to remain worthy of the trust our readers have in us. In an advertising market increasingly characterised by the use of data, DHA strives to give our advertisers access to a transparent, high-quality advertising system. DHA offers online advertising at www.jaegerforbundet.dk and in the *Nyt fra Danmarks Jægerforbund* (news from the Danish Hunters' Association) newsletter.

All content on the website and in the newsletters is prepared and/or approved by DHA employees.

The same applies when an advertiser decide to publish an online campaign in our media.

Advertising campaigns in DHA's media may only be ordered by contacting DHA's advertising department, and the department arranges publication in our online media. This means that all advertisements are first-party products with full information about who the advertiser is.

Since we want to deliver high quality in every exposure, we measure the effect of your advertisements using recognised third-party products. This is your guarantee that you actually receive the number of views you have paid for.

Data collection

DHA has set a clear framework for ensuring data protection and transparency in relation to data collection.

We have comprehensive privacy policies and consent forms to ensure that our users are always fully informed on what data is collected about them, what it is used for, and by whom. We also establish data processing and data sharing agreements with all parties who collect data via our sites, to ensure that they undertake to inform us about these factors, so that we can in turn inform our users in detail.
